Minutes:

- 1) Pledge- Pledge was led by Hali Newbold
- 2) School Safety- Cami explained Raptor. This is the new safety app the school is using for drills and school safety where you press a button and it alerts the school and the police and the district. We are also on a list for getting the safety doors, but we don't have a date yet for when they will be installed here.
- 3) Digital Citizenship- We went over the Safe Technology Utilization and Digital Citizenship in Public Schools HB213 plan. This plan is available through the principal. The district levels for blocked websites is very high. Those levels vary between students and teachers with teachers having more availability to websites they may need. Cami mentioned how our character education program we are using applies to the digital citizenship plan.
- 4) No other community or school concerns.
